

COMPREHENSIVE SUITE OF SERVICES

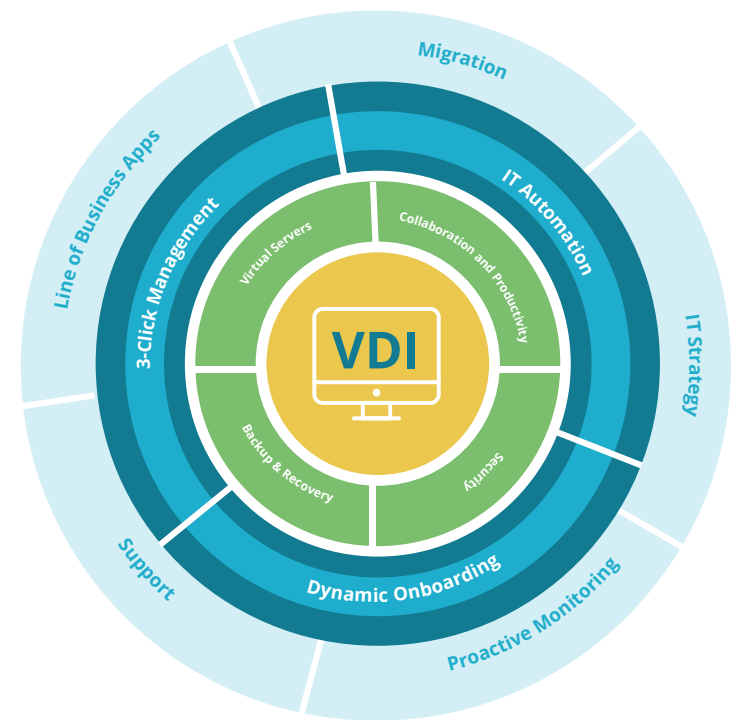

Most SMBs utilize internal resources to manage a variety of disparate hardware and software systems but lack efficient integration and ongoing management to ensure optimal performance, compliance, and security.

Adar's solution utilizes leading technologies to deliver comprehensive, seamlessly integrated IT environments that combine infrastructure, cloud technologies, and managed services at a fixed cost per user, per month.

Typical SMB IT Environment

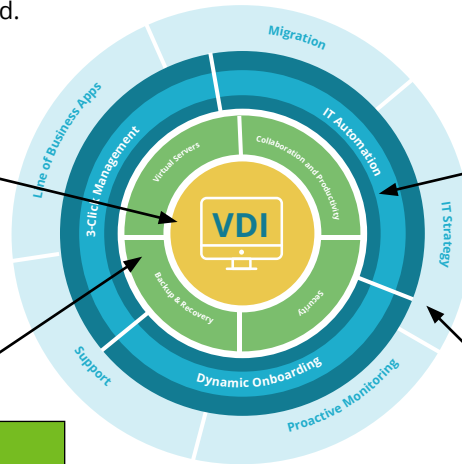

Adar Solution

Expertise Across Leading Technology Platforms

Adar leverages leading technologies to deliver a comprehensive solution for customers that drives efficiency, reduces costs, and enables customers to get the most out of their technology spend.
